SUMMARY

Full Stack Developer with 2 years of experience developing web applications for telemedicine and administrative management. Experienced in building applications with **React**, **Vite**, **Electron**, **Node.js**, and **Express**, integrating front-end and back-end systems, working with relational databases, and developing offline-first applications.

PROFESSIONAL EXPERIENCE

ADAM ROBO | Mar 2024 – Present Junior Full Stack Developer

- Planned, designed, and developed web and desktop applications using React, Vite, Electron, Node.js, and Laravel.
- Developed PWAs, dynamic forms, reusable components, and complex user flows.
- Integrated front-end applications with REST APIs and relational databases, ensuring reliable communication between systems.
- Provided direct technical support by troubleshooting, diagnosing, and resolving production issues.
- Implemented improvements focused on consistency, scalability, and performance, supporting more than 600 clients.
- Contributed to technical documentation and the architecture of new features.
